COLLABORATIVE ECONOMY COMMUNITY FOR THE DEVELOPMENT OF EMERGING PROJECTS BASED ON BLOCKCHAIN TECHNOLOGY.

> / What is SOCIALREMIT?

SocialRemit is a new platform designed to provide emerging projects with financial and technological tools based on blockchain and impact in a positive way on society through the collaborative economy that aims to build decentralized autonomous platforms of high efficiency, betting that the participating community gets involved in the projects it finances, which will also serve to establish a structure for social marketing and promotion, where each project can be spread in the media, to take advantage over the competition between the highlighted projects and obtain financing from other users.

Although blockchain technology is still taking its first steps, SocialRemit plans to take a leading role in all facets of remittances and real estate globally to make this a reality, starting with the disruption of the remittance market, and tokenize great real estate assets to negotiate in our Crowdfunding Touristic Real-Estate.

> / Headquarters.

SOCIALREMIT BLOCKCHAIN NETWORKS LTD has its headquarters in the United Kingdom and delegations in Spain, Malta and Latin America.

> / Objectives.

The ultimate goal of SocialRemit is to make available for you a platform where you can become true agents of social change.

> / Our team.

The project team has joined professionals with experience in the field of IT development, Blockchain Technology, financial sector and real estate sector.

But independently of the rest, the most **important is the community that we intend to build in our company.**

> / Airdrop and Social Remit community "CSR".

SocialRemit aims to build decentralized highly efficient autonomous communities, betting that the participating community gets involved in the projects that it finances and promotes. Every user of the community should spread the word about the products of the SocialRemit network, and we want this word of mouth communication to be positive, encouraging more customers to join our platform. We will dedicate all the necessary tools, resources and people to make this happen.

A decentralized community, based on netarchy (power of the network), can make decisions quickly, minimizing energy expenditure safely and reliably. SocialRemit stipulates a 'liquid' system of Decentralized Autonomous Organization for its internal community, where users can choose a sustained community in which they can propose the development of projects and also predict their viability.

This governance model for the community will be within a communication framework in which users promote good behaviors and values, with the aim of achieving a monetary return through the internal tokens (EaD) of the SocialRemit network.

These organizations will operate independently and autonomously.

AIRDROP will be done before the **PRE-STO** and 20,000,000 CSR tokens will be distributed until their entire existence is exhausted, these tokens will be created for the sole use of creating the internal community of SocialRemit. The price of each Token of the community will be 0.50Eur and they can only be exchanged for "EaD" as long as you abide by the terms and conditions of SocialRemit Blockchain Networks LTD privileges of belonging to the SocialRemit community and possessing Token CSR.

The CSR holders will be considered members of the internal community of the SocialRemit network platforms and will have the following privileges:

- They will be able to vote on the company's decisions.
- Present new projects to develop within the SocialRemit network and commit themselves even with them at a professional and development level.
- Take a voice when choosing representative delegates in front of the company.
- The CSR tokens Holders will have a monetary return through the internal tokens (EaD) of the annual SocialRemit network according to the benefits obtained by the company at the end of the fiscal year.

- Collaborate in the development of the company's own projects at a professional level (remunerated).

- Ease of opting for a job within the company (remunerated).

All CSR Holders will be prioritized. CSR token holders are also encouraged to hold on to their CSR currencies, as they will be essential to our exchange loyalty program. For members of the SocialRemit community **CSR** who purchase **CSR** tokens, 1,000 or more SREUR tokens we will waive exchange fees for exchange transactions, whose cumulative value in EUR does not exceed 20 times the value of retained tokens (i.e., if you have 1,000 SREUR Tokens, we will waive the exchange fees at $1,000 \times 20 = 20,000$ EUR in negotiation value per month). Members of the SocialRemit CSR community that acquire 5000 or more tokens will be subject to a 50x multiplier.

- Holders of CSR will have a commission for each referral that purchases SREUR token during our STO from:

From 0 to 30,000: 5% Commission

From 30,001 to 60,000: 7% Commission

From 60,001 to 300,000: 8.5% Commission

From 300,001 and up: 10% Commission

Commissions will be paid in Tokens "SREUR", any fraudulent use of our referral system may lead to suspension of the account of the community holder of the "CSR" tokens and the limitation of their rights as a member of the SocialRemit community.

- Conditions to exchange Token CSR to EaD

To be able to exchange CSR tokens by internal tokens "**EaD**" the holder of the CSR token must meet a number of conditions:

- Have "**SREUR**" Tokens in their wallet.
- Refer a minimum of 5 people and these people must have bought a minimum of 50EUR per person.
- Share our promotional link of the STO and have a minimum of 100 impressions (page views per IP). You can share it in the easiest way for you: Instant messaging, E-mail or on your website or blog, if you have one.

> / *Risks*

The collective sales of STO are a relatively young investment model that, however, is developing rapidly. The purchase of tokens represents a high risk for any taxpayer, there are some risks that investors can face and there is no guarantee of profits. This document does not constitute an offer of securities nor a promotion, invitation or request for investment purposes. The token offer involves and is related to the development and use of an experimental platform (software) and technologies that may not reach a satisfactory conclusion or achieve the objectives specified in the white paper. The conditions of the white paper can be modified according to the needs of the platform under the requirement of the community under voting, this can only be modified if they obtain a 50% + 1 of the votes of the community of socialremit.

> / *Tokens*

Currency of Internal use of Platforms within SocialRemit Blockchain Networks LTD **EaD**. The “**EaD**” tokens are essentially membership certificates in the entire network of platforms of the company SOCIALREMIT BLOCKCHAIN NETWORKS LTD (Stock1Wise Ltd "S1W", Okay Money Transfer Ltd), which grant rights and privileges to their owners as long as they comply with the policies KYC / AML of S1W. To ensure the security of the underlying assets represented by the **EaD** token, a trust fund has exactly the same number of fund shares as the issued tokens. It is protected by strict laws on trust funds, even in the event of bankruptcy. Only token holders can claim their shares in funds at any time.

There are four types of tokens, all of which implement the standard token ERC20. Detailed information on the volume, the distribution mechanism and the price of the tokens will be published separately before the contribution period.

> / *SocialRemit Tokens (SREUR).*

The SocialRemit tokens will only be released during the crowd sales period. The starting value of the **SREUR** tokens will be EUR 1 at the moment of their release in the different exchangers upon the termination of the STO, and their nominal value will be able to increase or decrease, they can be exchanged for other cryptocurrencies in different Centralized and Decentralized Crypto Exchanges once the STO and the released tokens are finished. If the SocialRemit tokens are stored in a special intelligent contract, the SocialRemit token holder can change a given amount of SREUR weekly by Internal Tokens "**EaD**" to the average price that is in the exchangers of cryptocurrencies where it is operating.

> / Token "SREUR" privileges.

Holders of SocialRemit SREUR will be eligible for various privileges. All those who buy chips during the STO will be prioritized. The SREUR token holders are also encouraged to hold on to their SREUR currencies, as they will be essential to our exchange loyalty program. For members of the SOCIALREMIT community who buy 1000 or more SREUR tokens we will waive the exchange rates for exchange transactions, whose cumulative value in EUR does not exceed 15 times the value of retained tokens (i.e., if you have 1,000 Tokens) of SREUR, we will waive the exchange fees at $1,000 \times 15 = 15,000$ EUR in negotiation value per month).

Members of the SocialRemit community that acquire 5000 or more tokens will be subject to a 40x multiplier.

> / Intern Tokens of Liquidity (EaD)

(Internal Fund of Liquidity) abbreviated with the name "**EaD**" with the face value of 1 European EUR will be for internal use as a form of payment for all services offered by all platforms of SocialRemit Blockchain Networks LTD. All EaD tokens are guaranteed at their value in European EUR, so if we have issued 50 million of EaD, that same value we will have of guarantee to ensure that our customers can withdraw at all times, never will be issued a greater amount of EaD than the real liquid fund that the company has available to face the average withdrawals of the clients, an independent audit will be carried out once a year to guarantee this rule that for each Token EaD that is in the market that same amount is in our bank accounts (**1EaD = 1EUR**).

All Customers need tokens from inmates to use the services of the SocialRemit platforms.

Tokens of Real Estate (OPS). The OPS tokens represent real-world assets in the form of Real Estate values. The users receive an OPS token in exchange for each investment in a property in our Real Estate Crowdfunding, which represents a legally applicable claim for the underlying assets.

Community Tokens (CSR). The CSR tokens represent the active community of SocialRemit and will be distributed in the airdrop that will be before the **PRE-STO** they can only be exchanged for tokens "**EaD**" once the platforms are operational and this will be carried out at a minimum amount per week.
